HR... **without the paperwork**

One platform for the full employee lifecycle

— About us

Built in Saudi Arabia, for Saudi labour rules

SarjHR is a cloud HR and payroll platform developed by **MTGroup**. It helps organisations in the Kingdom manage the full employee lifecycle, from hiring to end of service, with no paperwork and no scattered files.

We bring attendance, leave, payroll, performance and employee files into one platform, connected to government systems so your organisation stays compliant and up to date.

Our vision

For Sarj to be the first choice of Saudi organisations for HR and payroll.

Our mission

To simplify and automate HR work, in full compliance with Saudi labour regulations.

— Why Sarj

Six reasons Sarj is the right fit for you

Arabic-first

Designed for Arabic users from day one, with full English support.

Compliant

Built on Saudi Labour Law and the Wage Protection System.

Gov-integrated

Connected to Mudad, GOSI and Muqem, no double entry.

Fully cloud

Works in the browser and on mobile, nothing to install.

Employee app

Requests, payslips and records on every employee's phone.

Fast onboarding

We migrate your data and set things up; your team is live in days.

— Platform modules

Everything HR needs, in one place

01 Time & Attendance

Biometric or geo-location check-in, flexible shifts, and automatic lateness, absence and overtime tracking.

02 Payroll

Automatic salaries, allowances and deductions, e-approval, and transfer through the Wage Protection System.

03 Leave Management

Automatic balances for every leave type, custom approval chains, and a clear team calendar.

04 Employee Self-Service

Employees submit requests and view their records and payslips from their phone.

05 Performance

Measurable goals and KPIs, periodic reviews, and dashboards for people and teams.

06 Employee Files & Documents

A digital archive for contracts and documents, with alerts before iqamas and documents expire.

 Government integration

Connected directly to official platforms

No double data entry. Sarj integrates with government platforms so your organisation stays compliant and its data is always current.

 Mudad

Wage protection

Salary transfer and Wage Protection System compliance checks.

 GOSI

Social insurance

Automatic social-insurance contribution calculation.

 Muqem

Iqamas

Tracking of iqama and work-permit validity.

Data updated automatically

No double entry

— Getting started

Three steps to run your organisation on Sarj

1

Upload your employees

Import from Excel or your current system; we handle set-up and mapping.

2

Set your policies

Define shifts, leave types, approval chains and payroll items.

3

Go live

Employees start using the app, and you run everything from one dashboard.

Who is Sarj for?

HR managers

A full view of people, requests and compliance

Finance teams

Accurate payroll, faster approval, ready reports

Employees

Requests, payslips and records in their pocket
